Whereas, many injuries and fatal fires have occurred in occupancies where the fire safety systems have been compromised or disabled by the residents; and,
Whereas, it is recognized that fire safety education is an effective method of reducing the occurrence of fires and reducing the resulting loss of life and property damage; and,
Whereas, it is vital to educate the future generation of our Commonwealth and our Nation about the importance of fire safety behavior so that these behaviors can help to ensure their safety during their college years and beyond; and,
